Доклады Академии Наук СССР

Tom 208–Tom 213, 1973

Vol. 14, Nos. 1–6 January–December 1973 Pages 1–1892

ANNUAL INDEX OF AUTHORS

Abramov, A. A. and Gaipova, A. N. *On some equations containing monotone discontinuous operators* 1387

Abramov, Ju. Š. *On the theory of nonlinear eigenvalue problems* 1271

Abrosimov, A. V. See Mihaĭlov, L. G.

Ačil'diev, A. I. *On some boundary-value problems for elliptic equations degenerate on the boundary* 193

Adnadževič, D. *Some properties of A-spaces* 492

Ahmedov, T. G. See Ibragimov, I. I.

Aĭgunov, G. A. *On a boundary value problem induced by a nonselfadjoint differential operator of 2nth order on a semiaxis* 1816

Aĭzenberg, L. A. *On $\bar{\partial}$-closed exterior differential forms of type $(p, n-1)$ in the space C^n* 555

Aksent'ev, L. A. See Avhadiev, F. G.

Aleksandrov, A. D. *On congruence-preserving mappings* 1201

Alekseev, V. B. *On the number of k-valued monotonic functions* 87

Alenicyn, Ju. E. *Some area theorems for functions analytic, in a finitely connected region* 415

Alešin, B. V. *The limiting behavior of solutions of a system of differential equations* 708

Ambarcumjan, R. V. *On the solution of the Buffon-Sylvester problem in R^3* 863

Amirdžanov, G. P. *Density, Souslin number, and tightness of topological spaces* 350

Amirdžanov, G. P. *Q-spaces and cardinal numbers* 925

Andrunakievič, B. A.; Arnautov, V. I. and Ursu, M. I. *Wedderburn decomposition of hereditarily linearly compact rings* 930

Andrunalievič, V. A. and Rjabuhin, Ju. M. *Torsions in algebra* 60

Anisimov, A. V. *Some algorithmic problems for Dyck's language* 1035

Anisimov, V. V. *Limit theorems for random processes with decomposable state space* 829

On stopping a stochastic process at the time a certain level is reached 1500

Anšelevič, V. V. *The central limit theorem in "noncommutative" probability theory* 241

Arak, T. *On the rate of convergence of the distribution of the maximum of successive sums of independent random variables* 1

Arnautov, V. I. See Andrunakievič, B. A.

Arsen'ev, A. A. *Global existence of a weak solution of Vlasov's system of equations* ... 1763
Aršon, I. S. See Ibragimov, I. I.
Arutjunjan, A. A. See Engibarjan, N. B.
Avhadiev, F. G. and Aksent'ev, L. A. *The subordination principle in sufficient conditions for univalence* ... 934
Babaev, A. A. and Salaev, V. V. *A one-dimensional singular operator with continuous density along a closed curve* ... 598
Baderko, E. A. *On smoothness in Hölder spaces of potentials for 2p-parabolic equations* ... 1128
Bagirov, L. A. and Feĭgin, V. I. *Boundary value problems for elliptic equations in domains with an unbounded boundary* ... 940
Balašov, S. K. *On functions of completely regular growth along curves of regular rotation* ... 420
Baranovskiĭ, E. P. and Ryškov, S. S. *Primitive five-dimensional parallelehedra* .. 1391
Baryšovec, P. P. *Finite non-Abelian groups in which the derived groups of all proper subgroups are complemented* ... 355
Batuhtin, V. D. See Krasovskiĭ, N. N.
Bavrin, I. I. *Generalized integral representations for functions holomorphic in a polycylinder* ... 5
Some classes of harmonic and analytic functions and their structural representation ... 1206
Beljaev, Ju. K and Rykova, L. V. *Kolmogorov nonparametric test for samples from finite populations* ... 867
Bel'nov, V. K. *On the metrization of Abelian groups* ... 1133
On a property of the torus ... 1766
Berzanskiĭ, I. A. *Ultracompleteness of spaces, strongly dual to Fréchet-Montel spaces* ... 293
Berezanskiĭ, Ju. M. and Us, G. F. *On the expansion in eigenfunctions of selfadjoint operators admitting a separation of infinitely many variables* ... 1821
Berezin, F. A. *Quantization in complex bounded domains* ... 1209
Bereznickiĭ, Ju. F. *On the theory of p-spaces* ... 1615
Berman, S. D. and Žilinskaja, Z. P. *On simultaneous direct decompositions of a finitely generated abelian group and a subgroup* ... 833
Bežaeva, Z. I. *Ergodic properties of conditional Markov chains* ... 1085
Bibikov, Ju. N. *A sharpening of a theorem of Moser* ... 1769
Bikčantaev, I. A. *Some boundary value problems for an elliptic equation* ... 560
Bočkarev, S. V. *On the absolute convergence of Fourier series of functions of bounded variation* ... 1669
Bogatyĭ, S. *On a Vietoris theorem for shapes, inverse limits and a problem of Ju. M. Smirnov* ... 1089
Bogoljubov, Ju. I. *On the equation* $\phi(z) = \phi_1(x) + \phi_2(y) + \phi_3(x+y)$ ... 791

Boĭmatov, K. H. *Separability theorems* 1826
Boltjanskiĭ, V. G. and Čebotaru, I. S. *Necessary conditions in a minimax problem* 1665
Bondarenko, V. G. *On the absolute continuity of transition probabilities of diffusion processes in Hilbert space* 92
Borovkova, A. A. and Pečerskiĭ, E. A. *Criterion for weak convergence of nonnegative measures, and σ-topological spaces* 9
Brègman, L. M. *Some properties of nonnegative matrices and their permanents* 945
Budak, B. M. and Pavlov, A. R. *A difference method of solving boundary-value problems for a quasi-linear integro-differential equation of parabolic type* 565
Buhgeĭm, A. G. See Lavrent'ev, M. M.
Buhgeĭm, A. L. See Lavrent'ev, M. M.
Buhvalov, A. V. *On an analytic representation of operators with abstract norm* 197
Buhalov, A. V. and Lozanovskiĭ, G. Ja. *On sets closed with respect to convergence in measure in spaces of measurable functions* 1563
Buldygin, V. V. *On the convergence of random sequences with values in a Banach space* 1329
Bunimovič, L. A. *On the ergodic properties of billiards close to scattering ones* 1136
Burgin, M. S. *Topological algebras with continuous systems of operations* 1711
Burtin, Ju. D. *Asymptotic estimates of the diameter and independence and domination numbers of a random graph* 497
Bykov, V. M. *On closed coverings of manifolds and linking of cycles* 1140
Calenko, M. Š. *Categories of correspondences over regular categories* 1026
Čanturija, Z. A. *On orthogonal polynomial bases* 185
Čeban, N. K. See Sibirskiĭ, K. S.
Čebotaru, I. S. See Boltjanskiĭ, V. G.
Ceĭtlin, I. I. *A generalization of the Persson-Pietsch classes of operators* 819
Čencov, A. G. *On a game problem of programmed control* 1706
Čeresiz, V. M. *Continuous representations of groups with convergence* 1760
Černyšov, G. L. *On the solvability of a Cauchy problem* 1887
Cickišvili, A. R. *On the conformal mapping of a half-plane onto arc polygons* 1030
Čirkova, I. A. See Sibirskiĭ, K. S.
Čunihin, S. A. *On the definition of π-solvable and π-separable groups* 1558
On whole-block subgroups of finite groups 1892
Cygankov, A. A. *On the construction of functions which conformally map a Jordan domain onto the unit disc* 479
Daleckiĭ, Ju. L and Paramonova, S. N. *Stochastic integrals with respect to a normally distributed additive set function* 96
Daleckiĭ, Ju. L. and Samoĭlenko, Ju. S. *Spectral expansion of positive definite bidistributions* 1723
Dang Zyĭ Ruan [Đăng Huy Ruân] *On the complexity of a finite automaton corresponding to a generalized regular expression* 1632
Danil'čenko, T. N. and Mosevič, K. K. *Multistage two-person games with nonconflicting interests* 1222

Danilin, Ju. M and Pšeničnyĭ, B. N. *Estimates of the rate of convergence of a class of minimization algorithms* 1681
Dehtjarjuk, E. S. and Eĭdel′man, S. D. *Asymptotic uniqueness theorems for positive solutions of linear evolutionary systems* 992
Delone, B. N.; Galiulin, R. V.; Dolbilin, N. P.; Zalgaller, V. A. and Štogrin, M. I. *On three successive minima of a three-dimensional lattice* 309
Demidov, G. V. See Gegečkori, Z. G.
Dem′janov, V. F. See Vinogradova, T. K.
Dem′janenko, V. A. *On Tate height* 1512
Didenko, V. P. *On problems of Cauchy-Goursat type for a multidimensional hyperbolic equation with a degeneracy* 838
Diskant, V. I. *A generalization of Bonnesen's inequalities* 1728
Djatlov, V. N. *On the definition of Choquet boundary in a Kantorovič space* 1521
Dobrynskiĭ, V. A. and Šarkovskiĭ, A. N. *Typicalness of dynamical systems almost all paths of which are stable under permanently acting perturbations* 997
Dolbilin, N. P. see Delone, B. N.
Dudučava, R. V. *Weiner-Hopf integral operators with discontinuous symbols* 1001
Durnev, V. G. *Positive theory of a free semigroup* 1100
Dybin, V. B. and Gaponenko, V. N. *The Riemann boundary value problem with quasi-periodic degeneracy of coefficients* 1516
Dyn′kin, E. M. *Smooth functions on plane sets* 18
Džuraev, A. *On a system of singular integral equations over a bounded four-dimensional domain* 1039
Efimov, N. V. and Usmanov, Z. D. *Infinitesimal bending of a surface with a point of flatness* 22
Egorov, Ju. V. and Popivanov, P. R. *A class of pseudodifferential equations of principal type having no solutions* 509
Èĭdel′man, S. D. See also Dehtjarjuk, E. S.
Èĭdel′man, S. D. and Pletneva, T. G. *Positive solutions of parabolic systems and their integral representations* 187
Elepov, B. S. and Mihaĭlov, G. A. *The "walk on spheres" algorithm for the equation* $\Delta u - cu = -g$ 1276
El′kin, A. G. *On the construction of ρ-maximal spaces using expansions relative to centered ρ-systems* 1451
Elubaev, S. *Uniqueness theorems for two inverse problems of mathematical physics* 841
Emel′janov, V. F. *On some singularities of the Fourier series of functions given on an infinite interval* 1732
Engibarjan, N. B. [Yengibarian] and Arutjunjan, A. A. *On Weiner-Hopf equations* 363
Engibarjan, N. B. [Yengibarian] and Mnacakanjan, M. A. [Mnatsakanian] *On the solution of dual integral equations* 844
Èskin, G. I. *Asymptotics of solutions of elliptic pseudodifferential equations with a small parameter* 1080

Faĭvyševskiĭ, V. M. *On the structure of ideals of some algebras of analytic functions* 1067
Fal′, A. M. *On the simplest Markov random walk* 1071
Fedorčuk, V. V. *On a problem of A. N. Tihonov* 912
Compact spaces without intermediate dimensions 1808
Feĭgin, V. I. See Bagirov, L. A.
Feĭnberg, V. Z. *Complete homogeneous ultrametric spaces* 288
Fil′čakov, P. F. See Mitropol′skiĭ, Ju. A.
Filippov, V. V. *On the dimension of normal spaces* 547
Fomenko, V. T. *On quasi-correctness of exterior connections in the theory of infinitesimal bending of surfaces* 1603
On the rigidity and unique determination of closed surfaces of genus $p \geq 1$ in a Riemannian space 1657
Fradkov, A. L. and Jakubovič, V. A. *Necessary and sufficient conditions for absolute stability in classes of systems with two integral quadratic relations* 1812
Fridman, G. Š. *On radius critical directed graphs* 1435
Gabasov, R.; Kirillova, F. M. and Morduhovič, B. Š. *The discrete maximum principle* 1624
Gadžiev, A. D. See Ibragimov, I. I.
Gahov, F. D. *A nonlinear boundary-value problem with admissible zeros on the contour* 877
Gahov, F. D.; Zvorovič, È. I. and Samko, S. G. *Increment of the argument, logarithmic residue and the generalized argument principle* 1856
Gaipova, A. N. See Abramov, A. A.
Galiulin, R. V. See Delone, B. N.
Gaponenko, V. N. See Dybin, V. B.
Gasanov, G. M. See Guseĭnov, A. I.
Gavrilov, N. K. *On n-dimensional dynamical systems close to systems with a structurally unstable homoclinic curve* 1341
Gegečkori, Z. G. and Demidov, G. V. *On the convergence of the weak approximation method* 1673
Gel′man, B. D. *A generalization of Kakutani's fixed-point theorem to many-valued mappings* 305
German, L. F.; Soltan, V. P. and Soltan, P. S. *Some properties of d-convex sets* 1566
Gil′, M. I. *On operator colligations with nonunitary characteristic operator-valued functions* 1149
On the representation of the resolvent of a nonselfadjoint operator by integrals with respect to a spectral function 1214
Gimon, V. V. *The dependence of the second-level rules of inference in Markov's stratified semantic system* 1504
Girko, V. L. *Limit theorems for solutions of systems of random linear equations and for eigenvalues and determinants of random matrices* 1508
Gisin, V. B. *On an imbedding of a semi-Abelian category in an Abelian category* 1833

Gluško, V. P. and Hoang Hien Šin′ *On the completeness of the generalized eigenfunctions of a degenerate second-order differential operator* 1861
Gohberg, I. C. and Laĭterer, Ju. *A criterion for factorization of operator-functions with respect to a contour* 425
Gol′dberg, A. A. *On a problem of Ju. V. Linnik* 950
Gol′dberg, V. V. *On* $(n+1)$*-webs of multidimensional surfaces* 795
Gol′dman, M. A. and Kračkovskiĭ, S. N. *On the stability of some properties of a closed linear operator* 502
Gol′dšmidt, A. I. and Suvorov, G. D. *A theorem on limit sets and nonmetrizable compactification of a region which is invariant under conformal mappings* 1837
Gol′dšteĭn, V. M. *Approximation of quasi-conformal homeomorphisms by simplicial quasi-conformal homeomorphisms* 1628
Gorbačuk, M. L. See Gorbačuk, V. I.
Gorbačuk, V. I. and Gorbačuk, M. L. *On boundary-value problems for a first-order differential equation with operator coefficients and the expansion in eigenfunctions of this equation* 244
Grabovskaja, R. Ja. and Kreĭn, S. G. *On a representation of the algebra of differential operators and related differential equations* 1346
Guc, A. K. *On mappings of families of sets* 506
Gudkov, V. V. and Lepin, A. Ja. *On necessary and sufficient conditions for the solvability of certain boundary-value problems for a second-order ordinary differential equation* 800
Gulin, A. V. *On the stability of three-level difference schemes with nonselfadjoint operators* 746
Gurevič, B. M and Oseledec, V. I. *Gibbs distributions and dissipativeness of U-diffeomorphisms* 570
Gurevič, G. A. *On the ranks of coefficient-free equations in a free group* 359
Gurevič, V. M. *On one-sided and two-sided regularity of stationary random processes* 804
Gurov, L. G. *On the stability of Lorentz mappings* 1677
Guseĭnov, A. I. and Gasanov, G. M. *On an error estimate for approximate solutions of a linear integral equation* 1218
Gutljanskiĭ, V. Ja. *On the area principle for a class of quasi-conformal mappings* 1401
Has′minskiĭ, R. Z. See Ibragimiv, I. A.
Hazan, M. I. *Nonlinear evolution equations in locally convex spaces* 1608
Henkin, G. M. *An analytic polyhedron is not holomorphically equivalent to a strictly pseudoconvex domain* 858
Himčenko, B. N. See Kamynin, L. I.
Hisamutdinov, A. I. *Estimators with minimum absolute moments for computation of the sum of a Neumann series by the Monte-Carlo method* 1382
Hoang Hien Šin′ See Gluško, V. P.
Hromov, A. P. *Finite-dimensional perturbations of Volterra operators* 406
Hrustalev, M. M. *Necessary and sufficient conditions for an optimal control problem* 983

Ibragimov, I. A. and Has'minskiĭ, R. Z. *On the approximation of statistical estimators by sums of independent variables* ... 883

Ibragimov, I. I. *On a method for investigating the completeness of systems of analytic functions* ... 31

On an estimate of the norm of some linear operators in classes of entire functions of finite degree ... 1226

Ibragimov, I. I. and Ahmedov, T. G. *On the set of points of absolute convergence of some Stieltjes integrals with a complex parameter* ... 111

Ibragimov, I. I. and Aršon, I. S. *On the completeness of the system* $\{x^{\lambda_n}\}$ *on a curve* ... 314

Ibragimov, I. I. and Gadžiev, A. D. *On the order of convergence of singular integrals of Cauchy-Stieltjes type* ... 1286

Ibragimov, I. I. and Nagnibida, N. I. *Some remarks on the completeness of the system* $\{f(\alpha_k z)\}_{k=0}^{\infty}$ ... 888

Ibragimov, I. I. and Trukačev, V. N. *On an extremal problem in the class of entire functions of finite degree* ... 163

Ibragimov, I. I.; Nagnibida, N. I. and Šmata, T. S. *On a basis of the space of functions analytic in an annulus* ... 1351

Ibragimov, S. I. *On the completeness of some systems of functions analytic in an annulus* ... 809

On the completeness of two systems of analytic functions ... 1865

Ibramhalilov, I. Š. *On Bayes estimates of the means of Gaussian distributions* 1291

Il'jašenko, Ju. S. *Nondegenerate B-groups* ... 207

Ioffe, M. S. *On a problem of the variational calculus in the large for conformal and quasi-conformal imbeddings of one finite Riemann surface in another* ... 1576

Isakov, V. M. *On the solvability of an inverse problem in potential theory* ... 1701

Ivanov, L. A. *Smooth dependence of solutions of Noether problems on a parameter* ... 615

Ivanov, V. V. *The resolvent sequence in questions on generation of summable semigroups of operators* ... 1696

Jadrenko, M. I. *On optimal linear estimates for the regression coefficients of isotropic random fields* ... 920

Jakovlev, M. F. See Molčanov, I. N.

Jakubovič, E. D. *On the construction of an optimal control effecting the exponential stabilization of linear systems* ... 488

Jakubovič, V. A. (see also Fradkov, A. L.)

Necessary and sufficient conditions for absolute stability under certain types of quadratic constraints ... 410

Minimization of quadratic functionals under quadratic constraints and the necessity of a frequency condition in the quadratic criterion for absolute stability of nonlinear control systems ... 593

Jančevskiĭ, V. I. See Platonov, V. P.

Janušauskas, A. *The problem of the oblique derivative with polynomial coefficients* ... 151

On singular points of harmonic mappings ... 1496

Jarv, È. A. *On Zolotarev critical integrals* 1333
Judin, D. B. *Methods of constructing decision rules for multistage problems of stochastic programming* 824
Multistage problems of stochastic programming 787
Kac, G. I. See Vaĭnerman, L. I.
Kac, I. S. *Spectral density of the string* 1044
Kaĭgorodov, V. R. *On the curvature of s-recurrent and quasi-symmetric Riemannian manifolds* 1454
Kalašnikov, V. V. *The property of γ-reflexivity for Markov sequences* 1869
Kamenskiĭ, G. A. See Vaĭnberg, N. G.
Kamynin, L. I. and Himčenko, B. N. *On Lipschitz boundary estimates for a solution of a second-order elliptic-parabolic equation* 1407
Kanovič, M. I. *Irreducibility of languages of the stepped semantic system* 1459
On the complexity of approximation of arithmetic sets 1153
Kantor, I. L. *Models of exceptional Lie algebras* 254
Kantorovič, L. V. and Zijanov, V. I. *A one-product dynamic model of economics, taking account of the change in structure of stocks with industrial progress* 1231
Kaplan, A. A. *Characteristic properties of penalty functions* 849
Karadžov, G. E. *An interpolation method of "means" for quasi-normed spaces* .. 319
Karapetjan, S. E. *The topology of asymptotic lines on closed linear surfaces* 373
Karaperjanc, N. K. and Samko, S. G. *Singular integral equations with Carleman shift in the case of discontinuous coefficients, and the investigation of the Noetherian nature of a class of linear operators with involution* 1006
Karatoprakliev, G. D. *On an equation of mixed type in multidimensional domains* 116
Karev, G. P. *On convergence of functionals of a Markov chain* 513
Kasimov, È. I. *On a basic system* 211
Katok, A. B. *Invariant measures of flows on oriented surfaces* 1104
Kazarjan, G. G. *Comparison of differential operators, and differential operators of constant strength* 249
Kiprijanov, I. A. *Degenerate differential operators of principal type* 1874
Kirievskiĭ, L. A. and Poljak, R. A. *On the acceleration of convergence of convex programming methods* 574
Kirillov, A. A. *Representations of an infinite-dimensional unitary group* 1355
Kirillova, F. M. See Gabasov, R.
Kiržner, V. M. *On the behavior of the trajectories of a class of genetic systems* 378
Ključancev, M. I. *Estimates of fundamental solutions of singular boundary value problems with a parameter* 1236
Kombarov, A. P. *On the normality of Σ_m products* 1050
Kombarov, A. P. and Malyhin, V. I. *On Σ-products* 1780
Kononenko, A. F. and Kukuškin, N. S. *Mixed strategies in games with a fixed sequence of moves* 619

Koplatadze, R. G. *The existence of oscillatory solutions of second-order nonlinear differential equations with retarded argument* 711
Kopylov, A. P. *On the behavior of quasi-conformal space mappings, close to conformal ones on hyperplanes* 624
Korneĭčuk, N. P. *On uniform approximation of periodic functions by subspaces of finite dimension* 1736
Košelev, A. I. *On the continuity of the solutions of systems of quasi-linear elliptic equations of second-order with bounded nonlinearities* 1784
Kozak, A. V. *On a projection method for solving operator equations in Banach space* 1159
A local principle in the theory of projection methods 1580
Kozlovskiĭ, I. M. *On absolute spectral decompositions* 430
Kračkovskiĭ, S. N. See Gol'dman, M. A.
Krasnitskiĭ, S. M. *On the conditions for equivalence of probability measures corresponding to Gaussian fields with different correlation functions* 1055
On conditions for equivalence of probability measures corresponding to Gaussian fields differing in mean values 1109
Krasnosel'skiĭ, M. A. *On several new fixed point principles* 259
Krasovskiĭ, N. N. *Programmed designs for positional differential games* 1239
Krasovskiĭ, N. N. and Batuhtin, V. D. *On a nonlinear differential game of convergence-divergence* 1293
Kreĭn, M. G. and Nudel'man, P. Ja. *On some new problems for Hardy class functions and continuous families of functions with double orthogonality* 435
Krein, S. G. (see also Grabovskaja, R. Ja.)
Kreĭn, S. G. and Levin, S. Ja. *The general initial value problem for a differential equation in Banach space* 1058
Kreĭnin, Ja. L. *On sets diagonally different from all S-sets* 1637
Krivoručko, A. I. *On cardinal invariants of spaces of mappings* 1642
Krjanev, A. V. *The solution of incorrectly posed problems by methods of successive approximations* 673
Kronrod, A. S. *On a nonmajorizable method for choosing a confidence region at a given confidence level* 215
On a nonmajorizable method for choosing a confidence region for one type of specified function 670
Kruškal', S. L. *On the measure of the limit set of a finitely generated Kleinian group* 954
Kučerenko, V. V. *The Hamilton-Jacobi equation in a complex nonanalytic setting* 1841
Maslov's canonical operator on the germ of a complex almost analytic manifold 1879
Kučment, P. A. *On complemented subspaces in spaces with a symmetric basis* .. 217
Kudrjavcev, V. B. *On the functional system* $\mathfrak{P}_\Sigma$ 755
Kuk, Ju. V. and Petunin, Ju. I. *Observable linear estimates of the mathematical expectation of a random process* 323
Kukuškin, N. S. See Kononenko, A. F.
Kušner, B. A. *Continuity theorems for some types of computable operators* 221

Kutateladze, S. S. *Some theorems on convergence of operators* 166
Kuzičev, A. S. *Deductive-combinatorial construction of the theory of functionality* 440
A system of λ-conversion with a deductive formal implication operator 1584
Kuz'minyh, A. V. *The isoprojection property of the sphere* 891
Laĭterer, Ju. See Gohberg, I. C.
Lavrent'ev, M. M. and Buhgeĭm, A. G. *On a class of problems in integral geometry* 957
On a class of problems in integral geometry 758
Lavrent'ev, M. M. and Reznickaja, K. G. *Uniqueness theorems for some nonlinear inverse problems for parabolic equations* 120
Lavrik, A. F. and Sobirov, A. Š. *On the remainder term in the elementary proof of the prime number theorem* 1063
Leĭzin, M. A. *On embedding theorems for a class of singular differential operators in a half-space* 1243
Some imbedding theorems for a class of singular differential operators 1588
Leontovič, V. M. *The Cauchy problem and a mixed problem for strongly quasiparabolic systems and quasi-Schrödinger systems* 715
Lepin, A. Ja. See Gudkov, V. V.
Lerman, L. M. and Šil'nikov, L. P. *On the classification of structurally stable nonautonomous systems of second order with a finite number of cells* .. 444
Levin, L. A. *On the notion of a random sequence* 1413
On storage capacity for algorithms 1464
Levin, S. Ja. See Kreĭn, S. G.
Levin, V. L. *Subdifferentials of convex integral functionals and liftings that are the identity on subspaces of* $\mathfrak{L}^\infty$ 1163
Levitan, B. S.; Perel'man, T. L. and Travnickaja, I. V. *On a limiting condition of a class of integro-differential equations with a nonintegrable kernel* .. 170
Levitan, E. S.; Miljutin, A. A. and Osmolovskiĭ, N. P. *On necessary and sufficient conditions for a local minimum in a problem with constraints* 853
Liber, S. A. *On a problem of A. I. Mal'cev* 1167
Lifanov, I. K. *On the dimension of normal spaces* 383
Lisica, Ju. T. *Extension of sequences of mappings approximating a given compactum* 1467
Ljance, V. È. *Expansion in eigenfunctions of a one-dimensional first-order pseudodifferential operator with constant coefficients* 1648
Ljašenko, N. N. *On the modeling of Brownian motion by sums of multiplicative functions* 1247
Ljubarskiĭ, M. G. *A generalization of the Floquet-Ljapunov theorem* 1788
Ljubič, Ju. I. *On the mathematical theory of heredity* 579
Ljuksemburg, L. A. *On transfinite inductive dimensions* 388
On compact spaces with noncoinciding transfinite dimensions 1593
